

# POWER IN NUMBERS

Become an influential part of a rapidly growing economy whilst also gaining access to innovative low carbon energy, an extensive pool of highly skilled professionals and world-leading colleges and universities. But don't just take our word for it – **here are the facts.**

70% of low carbon electricity in the UK comes from nuclear power stations.

We're building 2 new build nuclear power stations at Hinkley Point.

And a £1.8bn nuclear defence programme at Devonport.

44 Colleges and training providers working together within Hinkley Point Training Agency.

Over 180 nuclear companies and organisations.

Combined this gives you access to over 8,000 highly skilled engineers.

The programme plans to offer £70bn additional investment opportunities.

£100m added to the local economy during Hinkley construction.

Hinkley Point C will create 25,000 jobs and 1,000 apprenticeships.
