Destination Plan for Mid Devon Tourism	July 2017	Rather than taking a direct and active part in the delivery of the Destination Plan, the LEP, through its Management Group is working to ensure that the visitor economy is appropriately referenced in key strategic documents such as the emerging HotSW LEP Productivity Plan. This is being supported by engagement with the District Councils across the region as part of the Productivity Plan development and consultation process. Whilst the LEP is not in a position to comment on the detailed elements of the Destination Plan, by using the approaches outlined above the aim is to support the delivery of the objectives it will contain by ensuring that there is a close alignment between strategic documents at local and regional level.
