

# SKILLS LAUNCHPAD: DIGITAL DEVON

## OUTCOMES

- Digital Devon has helped over 600 individuals so far with digital support
- Connecting communities through digital skills

The largest part of this project is community learning, delivered by Learn Devon, providing basic skills such as setting up emails or social media accounts. The project aims to break down barriers people face when accessing services, or talking to friends and family online.

The Skills Launchpad connects people with skills, careers, training and jobs in the Heart of the South West area.

Digital Devon, a Community Renewal Fund promoted by the Heart of the South West Skills Launchpad, builds community resilience and new approaches to connect communities through digital skills.

The project supports residents in gaining vital skills in order for them to be able to effectively, and safely, use technology across both their working and personal lives.

## ABOUT THE HOTSW LEP

The LEP is a business-led partnership between the private sector, local authorities, universities and colleges, aiming to lead and influence economic growth, job creation and prosperity.
